

# Map Features

The MAP interface allows responders to zoom in and out, pan, rotate, and tilt the viewing angle. The following community features can be turned on or off on the MAP:

- Fire Departments
- Fire Hydrants
- Fire Management Zones
- Hospitals
- Manholes
- Parks
- Police Departments
- Rail Lines
- Regulated Businesses
- Rivers and Waterways
- Sewer Lines
- Storm Drains

*"It's an amazing tool that gives us rapid access to the information we need to protect property and save lives."*

- Mike Buren,  
Santa Ana Fire Hazmat

Rapid-Access *Emergency Response*  
DATABASE

## What is HAZMAP

HazMAP is a complete electronic system for emergency responders, agencies, and the business community to manage hazardous materials and related emergencies.

- Businesses Submit their Business Emergency Plans Electronically
- Agencies Review and Approve them
- Responders Access the Information during an Emergency

## Emergency Responders

- Current and Accurate Emergency-Specific Data
- Navigable Map Interface with Selectable Layers
- Classified Chemical Hazards, Emergency Contacts and Facility Maps
- Fast and Easy Searching Capabilities
- Mobile and Functional with or without the Internet

## Agencies

- Customized Forms and Procedures
- Tools for Reviewing and Approving Electronic Submissions
- Electronic Communications
- Legally-Binding Electronic Archives

## Business Community

- Electronic Submission of Business Emergency Plans
- Satisfies the Needs of Small and Large Businesses
- Supports Digital Signatures
- Prints Forms Identical to Paper Ones

## Public

- Saves Lives
- Minimizes Damage to Property and the Environment
